DAILY RECORD-UNION

THE PEOPLE'S VICTORY.

The RECORD-UNION congratulates the citizens of Sacramento upon the splendid victory they yesterday achieved over elements not merely antagonistic to the best interests of the city, but destructive of them. It was a victory achieved in the face of obstacles that appalled all but the men who have unwavering faith in the right, and are unshaken in their loyalty to free institutions. The splendid triumph yesterday-unparalleled in our State his tory—is not that of any party merely; neither Republicans nor Democrats claim it as such, but it was a victory for cleanli ness and the inalienable right of the governed to determine for themselves the policy of their government.

For more than fifteen years both parties in Sacramento have been dominated by vicious influences that prevented a free expression of the will of the voters. Very few indeed have been the instances in which the iron hand of detestable bossism has been shaken off; revolts have, it is true, taken place, but they have in no instance risen to the dignity and importance of that which resulted vesterday in the complete overthrow of the tyranny of a bossism that has ruled this city for nearly two decades in a manner that this or any other community, it demands has literally enslaved every man, woman and child in it.

Every department of municipal government and nearly every department of county government has been under the control of this debasing influence, and from school-room to the bar of the Courts, from the grated windows of the prisons to the wards of the hospitals, odious bossism has asserted and maintained its tyrannous

Sacramento have been, in all but private affairs, at the beck and call of the bosses. the masters. They have dictated nominations to con ventions, sold elections, determined policies, named subordinate officials, parceled out the patronage of offices, shared i official salaries, and intermeddled even in public educational schemes. The barefaced frauds at the Republican primary of the 3d of March, perpetrated in the interest of the corrupt bossism that has until today ruled the community, roused the peotion of these outrages in the Republican Convention of March 5th was the popular wrath which culin the inundation of yesterday. Thursday, March 8th, the Republicans met in mass meeting, declared their independence of boss rule, effected reorganization of the local party and named a committee to represent it and carry on its recognizing that bosses have all things political in common Republicans indorsed it, and yesterday, four short days after the announcemen of the new declaration of independence and after an unprecedented hot cam paign, in which party politics cut no figure and was not even mentioned, the people ratified and confirmed the action

by an overwhelming majority. The RECORD-UNION takes honest pride in the aid it contributed towards the a complishment of this result. It labored to that end from a conviction of duty to the city where its interests lie, and believ ing it was the only means of rescuing the Republican organization in Sacrament from the wreckers who controlled it, that it might in this city again be put upor the highway to the full attainment of its lofty destiny. It does not believe that boss rule and political slavery is necessary to contests between the Republican and Democratic parties upon great questions of governmental policy. Leaders are necessary, organizers are indispensable in party direction; but when these assume to rise superior to their creators and employ methods unclean and tyrannous, the party that does not prove equal to their over throw becomes their slave.

That was the condition of the Republican party in Sacramento. Its machinery being in possession of its self-appointed masters and used to do it injury in its own house, it had no other recourse than to join hands with its political opponent equally oppressed, and with it make con the masses of the people were united in a contest between liberty and despotism, waged war, irrespective of party, for the attainment of freedom from odious domin-

This has been achieved and Sacramento's future as a city is to-day a hundred-fold brighter. The atmosphere has been cleared, the money-changers cast out of the temple, municipal economic reform inaugurated, the Fire and Police Departments taken out of politics, and the Republican and Democratic parties of Sacramento arrayed upon the only proper lines of antagonism.

This remains to be said. The success of gaged in a foreign war, how many coolies could be relied upon to enlist in the milivesterday will turn to ashes in our hands tary ranks? and of what value would they if citizens relapse into their former state be, when found there? The citizen who neglects the caucus and the primary must not complain of the result of the Convention, or ing of all the families in the State, no matthe outcome at the polls. Success such as that of yesterday is to be retained only by sities of modern life. Besides, the tariff on that of yesterday is to be retained only by this commodity operated as a bounty on this commodity operated as a bounty on forest destruction, and its abolition will be a check to the timber rings which have run alone. From present indications Sacramento is ikely to send a strong delegation of ballotbox stuffers and illegal voters to swell the convict roll at the State Prisons. The violators of election laws have struck a ramentans is clear. The cowardly gang under arrest for illegal voting in this city yesterday must be punished to the full extent of the law. The following cities and towns report no leaths during the month of February: Anderson, Bodie, Colfax, Castroville, Downie ville, Gonzales, Healdsburg, Hopland, Le oore, Lockeford, Millville, North Bloom field, Susanville, Truckee, and Williams PREVAILING DISEASES.

Reports received from over one hundred alities, in different parts of the State, idicate a very great amelioration in the The absence of violent storms, severe

rains, and the usually warm weather that revailed during the month of February had a salutary effect in lessening the ten dency to diarrhoea and dysentery, and mitigating the frequency and severity of pulmonary affections. Diarrhœa and dysentery are mentioned in

reports from Lemoore, Arbuckle, Ander on, Tulare, Fresno, Ione, and other towns The diseases are, however, not prevalent occurring only in sporadic form. Measles are epidemic throughout the State, and, in some cases, as so severe as to mistaken for small-pox; especially in hose cases where the erupt dark and markedly papular. It is a strange fact that there is seldom an epidemic of small-pox that is not preceded, or accompanied, by measles. This was the case in great epidemic of 1670, when, accorng to Dr. Thomas Sydenham, the measle of that date introduced a kind of small-pox which he chose to entitle "Anomalous Small-pox," as he found it different in some particulars from the epidemic form that preceded it. This distinguished physician was the first to describe the differences tha existed between measles, scarlet fever and small-pox, and laid down rules to distinguish one from the other. Up to this time, neasles and small-pox were often described ogether, as if one was the modified form denounce as infamous falsehood and

> Scarlet fever, in sporadic form, is notice Sacramento, Oakland, San Francisco ons, Wheatland, Fort Bidwell, Ontario Los Gatos, Etna Mills, Soledad, Locke-ord, Anderson, Salinas, College City and Maxwell. The disease is of a mild type and attended with a very limited fatalit Diphtheria continues to prevail, but i an endemic form only. Although inspir ally much more fatal. In San Francisco thirty-seven cases were reported during the month, and of these fifteen died-a mortality of over 40 per cent. In Sacramente ome twelve cases were reported, with four deaths. and Anderson. In these towns the disease appears to be of a mild type and not as fatal as usual. Croup is mentioned as present wherever diphtheria prevails. It is the most fatal of all forms of diphtheria. The isolation of the patient and the most rigid sanitary su ervision cannot be too earnestly enjoined dealing with these cases.

Small-pox, we are glad to say, is on the lecrease, and at present shows no evidence of epidemic. In San Francisco, during the month of February, 115 cases only were reported; of these 18 were Chinese—15 of them directly importing the disease from China. San Francisco is a city that shows pre-eminently the value of vaccination and revacination, and its positive power to reserve a community from an epidemic of the disease. San Francisco has had smallpox in her midst for nine months; many f her streets reeking with filth, hundreds of her tenement houses hotbeds of contagious disease, and yet small-pox is kept well under control, solely by the good sen of her people in getting vaccinated and revaccinated. If it were not for the constan mportation of fresh cases from China, San Francisco would very shortly exhibit a clean bill of health, so far as small-pox is

In Stockton eight cases were reported luring the month. Dr. Ruggles, the effiient Health Officer of that city, says the isease is under control, and with the exensive protection afforded by vaccination. he does not fear any further spread of the isease. In Sacramento two cases were reorted in the early part of the month They are convalescent, and no new cases have appeared. San Diego reported seven cases in the early part of the month. They are convalescent, and no new cases appearing since the 6th of February, the city may be declared free from the disease.

In Los Angeles there have been several

cases; the exact number has not been furnished this office, but will probably no epidemic need be expected there. In San Pedro one case was observed. In San Fernando a case occurred; also one in Santa Barbara, three in Riverside, five in Salinas, and sporadic cases in Napa, Red wood, Santa Cruz, Cloverdale, Wheatland Sissons, Red Bluff, Lockeford, Redding Ione, Sierra City, Lincoln, Fresno and Tulare City, in the latter three cases were reported. In Dunsmuir Dr. Van Meter reorts three cases; in Gibson, three cases It is also reported in Edgewood, Mokel-JUST ARRIVED, IN SPLENDID ORDER— J The largest and finest lot of Orange and Lemon Trees ever received in this city. In Oakland there were seven cases during the month of February, which is a de of one-half from the previous h. Vaccination is vigorously enforced, so that there is hardly a chance for the disease becoming epidemic in that city. In San Jose the number of cases has not been reported, but probably did not exceed a dozen. We notice that the "inevitable fool" predicted in a late circular, has arisen, and, through

the press, is endeavoring by misleading statements to destroy public confidence in vaccination. This unwise course, being absolutely false in fact, is nothing less than favoring the spread of small-pox and bringing misfortune and eath where it might have been prevented. In Sheffield, England where small pox was epidemic, owing to the prevalence of anti-vaccination theories, it was found that out of ninety-five thousand vaccinated children only one hundred and eighty-nine contracted small-pox, and five thousand children unvaccinated one hundred and seventy two contracted the

COWARDLY ASSAULT.

LOCAL INTELLIGENCE.

Ruffians Attack a Citizen Who Chal lenges Illegal Voters. Among the most faithful and fearless of those who were stationed at the polls yesterday by the Independent Republican Central Committee to see that illegal votes were not cast, was George W. Ficks, who was assigned to duty as challenger at the First Precinct polls. During the forenoon he arrested one Eugene Latour for attempting to cast an illegal vote. Latour gave his residence as the St. George build-

ing and it was known that he did not live there. At the time the arrest was made Dennis L. McCormack tried to assist Latour in resisting arrest and in defending himself Ficks struck McCormack in the Mr. Ficks says this was the last he saw of McCormick until evening. He had arrested Frank Farley and sent him to the station-house, and subsequently went down to swear to a complaint against him. On his return, as he was coming through I street, he saw McCormick and another man

(who subsequently gave the name of Ed. Northrup) on the sidewalk in front of him As he attempted to pass them McCormick stepped up to him and said: "You -, we have got you now," and struck at him. Ficks jumped upon a bench near by, and McCormick drew a revolver and aimed it at Ficks' head, while the latter threw his hands behind him to show that he was unarmed. Mr. Ficks then jumped down and started for the police station

himself up. Mr. Ficks went before Judge Buckley and swore out a complaint charging McCormick with an assault with a deadly weapon. Northrup was discharged, after being summoned as a witness. McCormick was subsequently released on \$500 bail, to appear and answer to the charge this morning Charles F. Webber and E. H. Williams be coming his sureties.

None of the officers know either of the men, and they probably belong to the im-

Metropolitan Theater.

Haverly's American European Mastodon Minstrels appear to-night. It is scarcely necessary to more than refer to this splendid company, undoubtedly the best in the country. The features of the programme are very numerous and of the best character. The press is unanimous in its warm approval of the troupe and in com-mendation of the vocalists, the instrument ation, the comedians, the variety perform ers, and the management. The Chicago Times says of the company:

The Chicago Opera House was filled to the doors last night, and would be again and again with the same mirthful and musical attraction. It is but reflecting the popular verdict to say J. H. Haverly is furshing the public with the most admirable minstrel and specialty entertainment that has been upon the boards at any time. The ensemble is superb. The minstrel features are fresh and catchy, the gags new and spicy, the changes alert and the music

Fine Improvement.

John Breuner is tearing down the old brick building on the southeast corner of Sixth and K streets, and will proceed at once to the erection of another in its place which will be an ornament to the city. The new building will be 40 by 80 feet, with an iron and glass front, and will make one of the finest stores in the city. There will be large double doors in front, with French plate-glass show-windows running eight feet around the corner of Sixth street. The ceilings will be 17 feet high, giving a fine light and good ventilation. Mr. Breuner's example might be followed by many other property-owners along K street with advantage to the city and profit to them-selves. It is understood that when the building is completed it will be occupied by G. Politz, the clothier.

A STALWART REPUBLICAN. Domentini's Trial

All the evidence is now in and the argument will take place to-day in the case o Angelo Domentini, who is on trial in Department Two of the Superior Court, be fore Judge Van Fleet and a jury. The prisoner, who is charged with a criminal assault supon little Mary Weideman, was on the witness stand most of the day and was subjected to a very searching cross-examination by District Attorney Bruner His defense is the consent of the child.

Small-pox Convalescent Abroad. A man named Charles Breen, formerly an employe at the railroad shops in this city, arrived here on the Oregon express yesterday morning, and walking into the Police Station announced that he had the small-pox, but was nearly convalescent City Physician Parkinson, upon examina-tion of the man, said that he was not sufficiently recovered to be permitted to go upon the streets, and he was accordingly sent to the pest-house.

Every man upon the combined Democratic and Independent Republican ticket was elected by majorities ranging from 114 to 1,253.

The fact that the bosses had imported lot of roughs from San Francisco to bulldose our citizens and intimidate voters aroused the indignation of all good citizens, and they rallied around the polls o protect the purity of the ballot-box. The greatest interest was manifested in he First and Second Wards, where the bosses, with their employed emissaries,

practiced all the corrupt methods known again and met officer Ash, who immediately pursued McCormick and arrested him many of them swearing in their votes, to the ward-striker. Men were voted, Front street, near J. If we know all the methods of approach adopted by an enemy we are the better enabled to ward off the danger and postpone the moment when surrender becomes in evitable. In many instances the inherent strength of the body suffices to enable it to oppose the tendency toward death. Many, owever, have lost these forces to such an extent that there is little or no help. In other cases a little aid to the weakened lungs will make all the difference between sudden death and many years of useful life. GERMANY'S RULER. Emperor Frederick Issues a Proclama tion to His People.

Berlin, March 12th.—An extraordinary dition of the Official Gazette contains the following proclamation from the Emperor

To My People: The Emperor has ended his glorious life. In my much loved father, whom I bewall, whom my royal house with me laments in deepest sorrow, the taithful Prussian people have lost their fame-crowned King—the German nation the founder of its unity, and the newly-risen empire its first German Emperor. His illustrious name will remain inseparably

bound up with all the greatness of the German Fatherland, in whose new creation the strenu-ous labors of the Prussian people and Princes have met with the most splendid rewards. HIS FATHER'S WORK.

While King William, he raised the Prussian army to hights of its earnest vocation by nevertiring care; the nation's father, he laid a sure toundation for the victories which were afterward gained by the German arms, under his leadership, and out of which sprang the national unity. eadership, and out of which sprang the nalonal unity.

He therefore secured to the Empire a position
of power such as, up to that time, every German heart had yearned for, but had scarcely
dared to hope for, and that which he won for
his people in honorable death-bringing fight, he
was destined to strengthen and beneficially increase by the long and peaceful toil of his la
borious years of government.

GERMANY SECURE.

Safely resting upon her own strength, Germany stands forth esteemed in the council of nations, and desires only to enjoy in peaceful progress that which she has won.

That this is so we have to thank Emperor William. In his never-wavering devotion to duty, consecrated to the welfare of the Fatherland, he was supported by his reliance upon the self-sacrificing devotion of which the Prussian people had given unvarying proofs, and in which all German races shared.

All the rights and duties which are connected with the crown and my house, and which for the time that, according to God's will, it may be allotted for me to rule, I am resolved to faithfully preserve the name now passed to me. GERMANY SECURE. illy preserve the name now passed to me

Imbued with the greatness of my mission, hall make it my whole endeavor to continu the fabric in the spirit in which it was founded o make Germany the center of peace and to oster her welfare. To my faithful people, who have stood by my house throughout the history of this whole century in good as in evil days, I express my unbounded confidence, for I am convinced that on the basis of the unbreakable bond between the sovereign and the people, which independently of every change, is the life of the State and forms the unalterable support of the house of Hohenzollern, my crown rests henceforward as securely as it does upon the devotion of the country to the Government of which I am now called to the head, and of which I solemnly promise to be a faithful King, both in happiness and in sorrow.

INSPIRED WITH A GREAT PURPOSE.

and in sorrow.

SORROWING GERMANS.

The Emperor's Remains Lying in State-

stop. TRIBUTES OF LOVE.

Prince William stood for an hour super ntending the arrangements and giving the final orders, during which time fifty stal-wart Guards du Corps, dressed in showy uniforms and helmets bearing silver eagles, were present. All the men, picked from the first families of the land, laid floral wreaths at the feet of the dead Emperor, and then knelt and recited short prayers.

VIEWING THE REMAINS Prince William ordered that the thick white veil, almost concealing the Emperor ace, be removed. This was replaced after the guards had taken their final look at the dead. The same thing was afterwards done when the contingents of Emperor William's favorite regiment arrived, and were resent on the same sad errand.

THE NEW EMPEROR'S CONDITION. Emperor Frederick passed a good night. He is fairly well. He received a deputation of Berlin Alderman at Charlottenbur Palace to-day. The Emperor will not leav Charlottenburg for some days. HIS PHYSICIANS SATISFIED.

Berlin, March 13th.—The Emperor passed a good day at Charlottenburg. His voice is audible, but very hoarse. The physicians are satisfied with his condition. The Emperor will take the oath, according to the Prussian Constitution, on Saturday

MINISTERIAL CHANGES.

Extremists Expected to Resign from the German Ministry. BERLIN, March 13th.-When Emperor William was ill at the end of 1886 Prince Bismarck and the present Emperor agreed that the extreme element should leave the Ministry on the accession of Frederick this decision, Von Putkamer, Minister of the Interior, and probably Von Gosseler, Minister of Ecclesiastical Affairs, will soon resign. A RUSSIAN SENSATION.

A Mysterious Circular That is Causing Widespread Comment. Moscow, March 13th.—Seventeen thou-sand copies of a circular purporting to have been issued by the Governor of Sara toff was distributed throughout that provnce to day, stating that during a tour of inspection in 1887 the Governor observed everywhere destitution and ruin among the people, and suggesting the necessity of an early investigation and measures for re ief, and requesting the people to express their opinion as to whether the destitution was caused by economic conditions, or whether the social life of the people is the

root of the evil. The Moscow Gazette says it suspects the circular is a forgery, but if genuine it asks whether this is the beginning of universal suffrage in Russia, and the summoning of the old States general.
